 amplifyworkforce.com

Amplify Workforce fine tunes all of your staffing agencies into one, beautiful song.

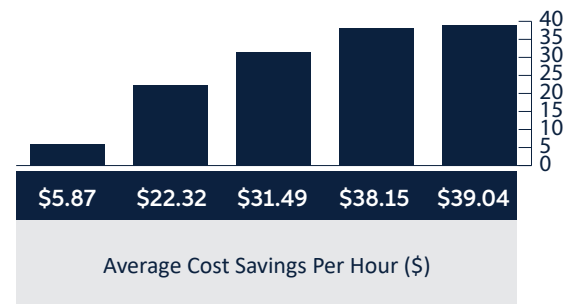

Spend time focusing on what matters without the busywork and hassle of managing contingent labor. Amplify Workforce is an integrated vendor management service, funded exclusively by the vendors. A dedicated Amplify team utilizes cutting edge VMS technology to manage your contingent labor and associated agency relationships. You engage with Amplify to determine the vendors best suited for your program.

Amplify is optimized for organizations that use multiple staffing vendors. By leveraging Amplify’s top quality program management and powerful reporting tools, you can gain visibility across operations, reduce time-to-fill, monitor contingent labor spend, track real-time performance, and pay a single vendor invoice. Furthermore, **Amplify allows inclusion of internal float/PRN pools.**

Amplify is web-based. It can be accessed from your smart phone, tablet or laptop. It can also integrate with internal technology platforms including HRIS, EMR and IT systems.

Amplify Workforce: Save Now and Later

Pressure from rising labor market rates are tempered by using Amplify Workforce. The graph below is an example of cost containment for an Amplify client over five years compared to other clients in their industry for MD, Nurse Practitioner and Physician Assistant rates.

- 1 Dedicated Support Team**
Access to an experienced staffing team with one point of contact.
- 2 Ordering & Reporting**
Gain visibility by placing staff needs in one place regardless of vendor.
- 3 Invoice Consolidation**
Single weekly invoice consolidates all vendor billing.
- 4 PRN Pool Maximization**
Manage internal Float/PRN pools with Amplify.
- 5 Integrated Compliance**
Ensure all candidates meet compliance and credentialing standards.
- 6 Vendor Contract Management**
Control vendor contracts to stimulate higher fill rates and improved cost controls.
